

**Notification No: 6/2016 – Recruitment to AEEs - Clarification on Examination Centre Allotment**

It may be informed that M/s APOline (JV between Government of AP and TCS) was entrusted with the work of conducting the Computer based examination as per MOU entered with the said concern. M/s APOline identified and fixed the venues on the basis of the quality standards adopted by them. Based on the centres identified by APOline, Centres were allotted to the AEE examination scheduled on 29-12-2016 and 30-12-2016. Complaints are received from certain candidates that they were not allotted the centre for AEE-2016 main examination as per their preference. It may be informed here that out of 37401 candidates, centre preference could not be considered only in about 2107 cases which works out to be about 5.6%. In all other cases, centre preference could be considered. Upon receipt of the complaints from the candidates, a request was duly made to M/s APOline to explore the possibility of increasing the capacity at certain centres like Anantapur. However, M/s APOline expressed difficulty in increasing the capacity. Any further effort to identify quality examination centres is going to result in the rescheduling of the examination adversely affecting all 37401 candidates. Hence, the Commission is of the opinion that change of centres is not a feasible proposition at this juncture. Therefore, all the candidates are requested to appreciate the situation and attend the examinations at the Centres allotted to them.
